Inventory **Jersey Tags** imprinted with the herd management number and unique national ID number for lifetime identification in the U.S. dairy records system will get you started.

Custom **Jersey Tags** are then ordered after the registration process is complete. Design the tag with the information you use most, such as:

- Calf date of birth (choice of *mm/dd/yr* or *mm/yr* format)
- Calf name or number
- Sire's short name or NAAB code number
- Dam ID number or name
- Dam date of birth
- Farm name or prefix, *or*
- Add your own imprint: up to 12 characters and spaces on one line for Large tags, or up to 15 characters and spaces per line, up to two lines, with the Maxi tag.

See all custom tag options, then create your perfect tags at the **Jersey Tags** store, under the Services menu when you log on to infoJersey. Tags available in white plus the seven colors below.

JerseyTags Order Options

Tags and buttons are actual size

MAXI TAG

LARGE TAG

RFID

**Only available in white.
Federal Premise ID required.*

BUTTON

JerseyTags can be ordered in a variety of sizes, front/back combinations, and colors to fit the needs of your dairy.

Tags are best used as inventory or customized after registration for constant easy-to-read identification.

Maxi tags (3" W x 4" H) can be paired with a RFID, button, or large tag. Similarly, Large tags (2.25" W x 3" H) can be paired with a RFID, button, or another large tag.

RFID and button tags act as permanent ID which display both the national ID number and herd management number.

An inventory bundle will supply you with a Large front tag, choice of button back, RFID 840 tag, and a Tissue Sampling Unit (TSU) for genotyping and BVD-PI testing.

Utilize the infoJersey website or contact your AJCA/NAJ Area Representative for pricing, tag customization options, or help placing orders.
